The future needs experience

Benefit from know-how made in Germany

Senior Experten Service (SES)

Foundation of German Industry for
International Cooperation

Assignments worldwide

The Senior Experten Service (SES) is the leading German organisation for voluntary assignments carried out by specialists and executives retired or taking a career break (Weltdienst 30+).

SES has been supporting the transfer of know-how in development cooperation since 1983. It is funded by the German Federal Ministry for Economic Cooperation and Development (BMZ).

The Senior Experts work internationally – in Africa, Asia, Latin America, East and Southeast Europe, but also in Germany. They pass on their expertise and professional experience always on a voluntary basis and on demand.

A boost for the future

SES provides expert knowledge to boost sustainable economic and social development. SES assignments strengthen local skills – across sectors and industries.

Assignments have an average duration of four to six weeks. SES undertakes the preparation, you bear the assignment costs and international travel costs. The SES can usually use funding from the BMZ to cover remaining costs.*

*In case of financing difficulties it is possible to grant assistance in individual cases.
